Affordable Learning Ohio

An OhioLINK initiative supported by ODHE
OhioLINK activities are designed to support library and campus initiatives, not individual faculty (although some aspects can be easily used by individuals).
3 Projects

Awareness and Advocacy
• Open Textbook Network workshops
• OhioLINK Affordable Learning Ambassadors

Discovery and Visibility
• Affordable Learning Ohio website

Creation and Collaboration
• Open Ohio OER Commons
Open Textbook Network Workshops

Designed for

• Faculty members who are interested in adopting and promoting open resources in their own classes and helping other faculty members learn more about finding and adopting open resources.

• Librarians who work with faculty and others to find open resources for their courses and who want to present workshops on campus about finding and adopting open resources.

• Instructional designers who help design courses using open resources and who would like to share with other instructional designers and faculty about designing courses using open resources.

• Administrators who would like to create programs focused on finding and adopting open resources to use in your own courses.
Registration is Open!

• November 6, 7, 8 at different locations in Ohio.
• If you have any questions about the workshops, please direct them towards Anna Bendo, at abendo@oh-tech.org.
• The registration form for the workshops can be found here at https://docs.google.com/forms/d/e/1FAIpQLSeV9dXugqFTAuPagbPCUyAFkYh9VpvJnPt2GYNdpl3oEFdKA/viewform?c=0&w=1

Awareness and Advocacy
OhioLINK Affordable Learning Website
http://affordablelearning.ohiolink.edu

- Information about OhioLINK programs and the grant.
- Information about upcoming events.
- Information about OER/Affordable Learning in general.
- Information about other initiatives on campuses across Ohio.
- Find and contact our Affordable Learning Ambassadors.

- A-Z OER/shared materials search targeted to grant participants
  - http://affordablelearning.ohiolink.edu/az.php
• Branded “microsite” of OER Commons. [https://www.oercommons.org/microsites](https://www.oercommons.org/microsites)

• Will be designed initially to meet needs of the participants in the OER grant.

• Fills repository need and authoring tools for created OER in multiple formats. Video and Advanced Video Integration: Import, host, and build collections of video resources. Video annotation tools are also available.

• Implementation in approx. 6 months
