Project Information

Description
The goal of the Ohio OER Grant project is to reduce textbook costs for college students throughout the state of Ohio. Content teams will review existing open content, create new content where needed, and share the results on the Affordable Learning Ohio website beginning in December 2018. This document articulates the team's proposal to develop content beyond the core deliverables (content map and Quick Adoption Guide).

OER Commons Microsite

- OhioLINK contributed to the grant project by providing and customizing OER Commons hub on microsite
- Chose OER Commons because of:
  - access
  - no limit on storage
  - ability to remix and author
  - searchability on larger OER Commons
  - customizability
- OOEC Hub is part of larger OhioLINK Open Course Content Library

Lessons Learned

● Find your champions/Value of having a faculty leader
● Importance of Project management process – Develop a clear scope of work
● Step-by-step instructions, do not assume level of technical expertise
● Recruitment is hard
  ○ Adding questions about leadership skills
  ○ We relied on deans, chairs, networking, connections, word of mouth
  ○ People are motivated by lots of different things, make sure not to make assumptions
  ○ We had people come back for round 2 & 3
● Unintended wins -
  ○ developed a group of colleagues across institutions
Recent Updates

- Regional workshops - see handout
- Doorhangers - distribute to faculty who teach these classes
